

Hello.

Here is some needfull information to edit Portfolio Yearbook Template.indd

Firstly, when you open the .INDD file, you'll see ERROR that fonts are missing. Don't panic and don't throw your mouse or laptop to the wall :-). You can easily replace all of them or, you can download it from licensed free fonts sites. Look in «Document fonts» folder.

- To replace your photos you have to **Choose your frame** > **Press CTRL+D** and show your own photo.
- To change the text that on the footer you have to **Press CTRL+J** and choose **Master Page**. Then you can change all the text.
- After open **Pages Panel** > **Choose spreads** > **Right click** > **Apply Master Page**
- To make more copy of pages just **Choose spreads** that you want to copy> Drag to the **New Pages button** on the bottom of panel.
